disklavier®

THE ULTIMATE PIANO

Enjoy on-demand performances by your favorite artists with the easy-to-use *Enspire Controller* App.

Experience lifelike piano performances complete with countless other instruments - even vocals!

Make your next next party a hit with built-in "fun for beginners" *SmartKey™* songs!

Listen to over 30 channels of *original artist* music (including seasonal channels) with *Disklavier Radio™*.

Host LIVE, in-home concerts by Elton John, Sarah McLachlan, The Piano Guys & more with *Disklavier TV!*

Play with headphones or connect to your home audio system and enjoy music throughout your entire house!

Unwind while your piano automatically updates and calibrates itself! All you have to do is have it tuned!

THE PLAYER PIANO SYSTEM

- Can be added to any piano.
- Offers over 6000 albums of music for endless fun!
- Control the system with any Smart phone, tablet, watch or via Alexa. No external software required.

THE RECORDING PLAYER PIANO SYSTEM

- Includes all of the above features.
- Converts any piano into a touchless, optical recorder with High Definition MIDI recording capabilities.
- Send your recordings to family and friends via Dropbox or print your music out!

THE COMPLETE PLAYER PIANO SYSTEM

- Includes all of the above features.
- Gives you all the best digital piano features (including headphones and other instrument sounds) for countless hours of enjoyment! This package can do it all!
